

## **APPENDIX 8.4**

### Key Staff Curriculum Vitae

**CURRICULUM VITAE OF STAFF DIRECTLY RESPONSIBLE FOR PRODUCTION OF EIA AND ASIDOHL2**

**Richard Lewis BA MfA**

**Head of Projects**

*Responsible for overall programming, tracking, quality assurance and editing*

Richard started working for the Trust as a Site Assistant in 2002 and has since worked extensively across South Wales and the Southwest of England. He now coordinates the commercial work undertaken by the Projects Division of the Trust. Richard graduated from Cardiff University and is a Member of the *Institute for Archaeologists*.

Richard is responsible for the management of the Projects Division. His duties include the day-to-day management of the Projects Team and their projects. He is also responsible for assisting with the expansion of the Trust's field of operations and income generation. Richard provides information generated through commercial activities to support other areas of Trust activity, particularly Historic Environment Record development and Heritage Outreach activities, and he has a keen interest in developing programmes of continuous professional training and development.

Richard's interests include the prehistory of South Wales, particularly funerary and ritual practices and their wider landscape setting. He is also interested in experimental archaeology, focused primarily on lithic technologies. During his spare time Richard volunteers for the Young Archaeologist's Club, as well as presenting archaeological talks to schools and local societies.

Appendix 8.4 Key Staff Curriculum Vitae

## **Richard M Roberts BA**

### **Projects Manager**

*Primarily responsible for ASIDOHL quality assurance*

Richard Roberts joined GGAT in 1996. He has worked on the archaeological aspects of a wide range of projects, including Torfaen LANDMAP study, the Gwent Levels Wetlands Reserve, Goldcliff, and Mynydd Hiraethog Historic Landscape characterisation for CCW, in addition to Nant Llesg, West Merthyr, and Ffos-y-Fran reclamation schemes in the Merthyr Tydfil area.

Since 2000 he has been involved extensively with the pan-Wales Historic Landscape Characterisation study undertaken for Cadw; producing reports for the Rhondda, Blaenavon and Merthyr Tydfil Historic Landscapes, among others.

His specialised interests are in the archaeology of the early medieval period, though he has considerable experience in the survey, excavation and interpretation of sites of all periods in both upland and lowland areas.

Prior to joining GGAT, he worked for Gwynedd Archaeological Trust in North Wales as a supervisor, where he undertook numerous fieldwork, survey and desk-based projects throughout the area, including surveys carried out on behalf of Cadw ranging from non-conformist chapels on Anglesey to prehistoric settlements and upland survey. He has also worked as an excavator/site assistant for Cadw on a number of large-scale excavations.

Appendix 8.4 Key Staff Curriculum Vitae

## **Rob Dunning BSc**

### **Project Officer**

#### *ASIDOHL quality assurance*

Rob began working for the Trust as a Project Archaeologist following the completion of his degree in Archaeology from the University of Wales Cardiff in 2002. He worked on a number of large excavations for the Trust, including Ewenny Quarry and the Newport Ship before becoming a Project Officer in 2004.

Rob's role as a Project Officer is to provide a key role in delivering both archaeological products and services to the company's clients. These include consultancy work, watching brief, desk-based assessments (including EIA and ASIDOHL), surveys, field evaluations, excavations and heritage projects (including Cadw projects).

He was recently involved in a large excavation at Cardiff Castle in 2005-06 and is currently occupied by follow-up survey and post-excavation works.

Rob originally trained as an Environmental Biologist, and his previous degree will be utilized in the Trusts' move towards in-house processing of environmental samples and ecofacts recovered during fieldwork.

## Andy Sherman BA

### Assistant Project Officer

*Research, compilation and assessment*

Andy Sherman joined GGAT in 2000 as a Project Assistant before briefly working for the Trust's Curatorial Division as a Development Control Assistant and the Acting SMR Officer.

In 2002 he was promoted to a Senior Project Assistant and in 2005 to Assistant Project Officer. He has worked on a large number of projects from the recording of iron buildings discovered at the Gwent Europark to the surveying of prehistoric monuments on the Black Mountain. During his eight years working with GGAT he has helped excavate a large number of sites ranging from a prehistoric interrupted enclosure at Ewenny, prehistoric occupation scatters at St Brides, Roman sites at Caerleon, Bristol, Usk and Gelligaer, the Newport medieval ship, the Caerleon bridge and the medieval cities of Swansea, Cardiff and Monmouth.

Prior to work for GGAT he worked for a short period of time with the Centre for Wetland Archaeology based at the University of Hull, where he also studied for a post graduate diploma in Wetland Archaeological Science and Management. Although not specialising in a particular period he has developed an interest in wetland archaeology and ancient boat building that he continues to pursue.
